

**THE PORTUGUESE IN AFRICA.**  
The Portuguese papers report the sailing of an expedition to Mozambique, on the East Coast of Africa, which is to commence the public works about to be executed in that province. The party consists of about 150 persons well provided with all that is necessary for the purpose of science, defence, and comfort. The Government has voted the sum of 250,000 to be expended on the different objects to be carried out during the present year.

A German translation of Dr. Georg Brandes's remarkable work on Ferdinand Lassalle, the well-known political writer of the beginning of this century, has appeared from the firm of Franz Duncker, in Berlin. Dr. Brandes has in the press a volume on *Literatur Kierkegaard*, the Danish philosopher.  
The *Colony Gazette* says that the Pope will confer the dignity of Cardinal at the next consistory on the Archbishop of Salzburg, Vienna, and the Bishop of Fribourg, and some Italian bishops. The Roman correspondent of the *Independence* writes that the Archbishop of Salzburg and Santiago will also be created cardinals.  
A butcher of some eminence was lately in company with several ladies at a game of whist, when having lost two or three rubles, one of the ladies, addressing him, asked, "Pray, sir, what are the odds now?" To which, without being mindful of his occupation, he replied, "Madam, the best ruble I cannot sell lower than tenpence-halfpenny a pound."

A Syrian convert to Christianity was urged by his employer to work on Sunday, but he declined, "But," said the master, "Does not your Bible say that, if a man has an ass or an ox that falls into a pit on the Sabbath day, he may pull him out?" To which, answered the convert, "but if the ass has a habit of falling into the same pit every Sabbath day, then the man should either fill up the pit or sell the ass."

**ENGLISH AND CHINESE DICTIONARY.**  
WITH THE  
**PONTI AND MANDARIN**  
**PRONUNCIATION.**  
An Anglo-Chinese Dictionary, published  
at the Daily Press Office, Hongkong.

**FOR COMPENSATION and practical service**  
this work stands unrivalled. At the new  
words which the Chinese have of late years been  
compelled to coin to express the numerous ob-  
jects of machinery, photography, telegraphy, and  
in science generally, which have been introduced  
into foreign relations has imposed upon them, are  
here given in Chinese. Each and every word is  
fully illustrated and explained, forming ex-  
cellent for students of Chinese and instruction.  
Both the Court and Puncti pronunciations are  
given, the accents being carefully marked on  
the type, thus enabling the student to acquire  
the pronunciation of the language with ease and  
accuracy. This dictionary is the result of an attempt  
to give the Chinese and English language correspond-  
ence in the use of words, thereby affording a vast  
economy of space, and dispensing with those  
vast margins and vacant spaces which have  
heretofore characterized Chinese publications.

For practical purposes the arrangement of  
the work is so complete, that a reference  
to it, enables a person who under-  
stands English, to communicate effectively  
with natives who understand nothing but Chi-  
nese. In this respect the work will be found  
indispensable to all Europeans residing in  
China, and to the Chinese who have acquired  
of late years a knowledge of English. To  
parties resident in England and interested in  
China, it is equally valuable and occasionally  
used. To illustrate the vast scope of the work,  
the following facts are submitted for consideration.  
Chalmers' Vocabulary contains about 16,000  
English words, and the Chinese and English  
and Chinese Dictionaries about 100,000, while  
this work contains more than 50,000 English  
words, and upwards of 800,000 Chinese charac-  
ters. Again, despite all the grammars and  
other elementary works yet published, the  
student of this difficult language absolutely re-  
quires, to display the various applica-  
tions and equivalents of different words, which  
have one general meaning. Of these examples  
this work contains more than five times as  
many as any other Dictionary hitherto pub-  
lished.  
It comprises upwards of two thousand large  
quarto pages.
